21-22 April 2016

Workshop

on lifetime and stability of hybrid and organic devices

Session Organic systems

Christoph Brabec, Erlangen, Germany
 Tom Aernouts, Leuven, Belgium
 Agnès Rivaton, Clermont-Ferrand, France
 Benedikt Gburek, Heliatek, Dresden, Germany
 Vida Engmann, Sønderborg, Denmark
 Sylvain Chambon, Bordeaux, France

Session Hybrid perovskite

Aldo di Carlo, Rome, Italy
 Rudiger Berger, Mainz, Germany
 Jacky Even, Rennes, France
 Shahzada Ahmad, Abengoa, Sevilla, Spain
 Bertrand Philippe, Uppsala, Sweden

Organizing committee

Iladine Witkowski, Paris, France
 Morten Madsen, Sønderborg, Denmark

Université Pierre et Marie Curie
 4 place Jussieu, Paris, France

The workshop aims to discuss common strategies and solutions for improving the lifetime and stability of organic devices and hybrid systems such as perovskites.

[Subscribe](#)[Past Issues](#)

Exchange your ideas and findings in an intense two days workshop with excellent speakers in the field and share this information with interested colleagues.

Registration is open and we ask you to hand in your contributions. All details can be found on the homepage:

<http://thinfacew2016.sciencesconf.org/>

With kind regards,

Katharina Rubahn

Coordinator of the Thinface Network
